

## St. Joseph H.S. undergoes accreditation

*Le père Ed Jalbert travaillant  
au St. Joseph High School à Santa Maria,  
nous raconte à propos de la procédure  
pour prolonger l'accréditation du Collège.*

St. Joseph High School is in the final stages of preparing for its accreditation visit by representatives of the Western Catholic Education Association and the Western Association of Schools and Colleges. Accreditation takes place every six years with annual update reports and a mid-term visit. The school has designated three areas for especially focused efforts over the next three years: student community service, technology and marketing.

Each of these areas will have a committee to oversee the formulation of guidelines and strategies in order to assure actual implementation of the action plan that is developed. The goals of these items are to have wider involvement of the students in community service, the integration of current technology into the instructional curriculum and a clearer presentation of the significant advantages of a Catholic education. All of these efforts are aimed at assuring the long-term strength of SJHS as an instrument for evangelization.

Fr. Ed Jalbert
